Item 1: Bill Gruszka and Ron Skopitz presented information on the Mirapoint System. This is an appliance-based e-mail system that would replace our current e-mail system and provide a shared calendar function for all faculty and staff. In addition to improved performance and functionality the new system should significantly reduce the demand on in-house IT personnel. A motion was made to advise the IT Division to proceed with this acquisition. The motion was approved.

Item 2: A motion was made that, in order to reduce spam addressed to SPSU e-mail lists, the IT Division make changes to the mailing list software such that only messages originating from an on campus IP address (including web mail) will be distributed to list members. The motion was approved.

The meeting was adjourned at 2:00 p.m.
