

Refund Information

The refund of tuition and fees is governed by the university system of Georgia.

Refunds are only generated when a student withdraws from all classes for a term.

Refund percentages are calculated based on the number of calendar days in a term. The formula is: Where X = the day of the term, and Y = the number of days in the term: $(Y-X)/Y = \% \text{ refund}$. Or, $(108-X)/108 = \% \text{ refund}$. A table applicable to fall and spring follows.
